

TOOL 3.10: Open vs. Closed questions – Examples

Examples of **closed-ended** questions:

Do you care about your health? Have you ever cared about your health?

Are you worried about your current situation?

Have you noticed changes?

Examples of **open-ended** questions:

What concerns do you have about your health right now? How about in the past?

What worries you most about your current situation?

What changes have you noticed?

What do you mean when you say...?
